DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Martindell (4,692,073).

Martindell discloses a handle for use with a bit, the handle including a socket 12 including a thin section 26, a thick section 24, an annular face 25 between the thin and thick sections, an axial cavity and a radial aperture communicated with the axial cavity in the thin section; a first detent, in the form of a ball, put in the radial aperture; and a chuck installed on the socket for control over the first detent (See Fig. 3).

Allowable Subject Matter

3. Claims 3, 12-16 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 20 and 4-11 are allowed.

Response to Arguments

5. Applicant's arguments filed 11 July 2005 have been fully considered but they are not persuasive. Regarding arguments 1, 2, and 3, on page 10 of the remarks, these features are not within the claims. Although the claims are interpreted in light of the

specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Regarding arguments 4 and 5, Martindell discloses these features, as the examiner has pointed out in the rejection above.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
